KEY RECOMMENDATIONS

- 01** Run **Phase 1 fully before Phase 2** — warm audiences convert 3x better than cold audiences.
- 02** Use **Phase 2 as a testing phase** — identify the best ad set and creative before scaling in Phase 3.
- 03** **Build & test the landing page** before Phase 3 begins — mobile speed directly affects lead quality.
- 04** **Respond to all leads within 1 hour** — B2B leads go cold fast. Assign a dedicated person for follow-up.
- 05** If **Cost Per Lead drops below ₹100** in Phase 3, increase daily budget to ₹1,500 to scale results.
